

Hands-on Session January 26, 2011 Lansing

www.21things4teachers.net

Face of Your Classroom, Copyright and Creative Commons, Digital Images

How do you and your students present material online and contribute to an online presence?
Learn about copyright and discover materials for you and your students to use in the classroom.

The Things.... Convenient links for today's session located at <http://it-iisd.wikispaces.com> -click "Sessions & Workshops", then "The 21 Things Series". Refer to the 21 Things website as well at www.21things4teachers.net

1. Images

Task: Locate and save three images of interest to you that are available for you to use or modify, licensed under a creative commons license or from a website that has given expressed permission for you to use the images.

Consideration: How are you saving the URL so you can give appropriate credit? Suggestion – after saving the image, right click on the image, go to Properties, Summary, and save the Image Title, creator, URL, etc.

2. Image Special Effects

Task: Explore the various image editing and special effects creators. There are various products such as photo cubes, posters, trading cards, etc. that you can create. Photo editors allow you to easily edit, add text and speech bubbles, etc.

Thoughts:

1. How can you use images in your classroom for teaching and learning? How do they inspire thinking?
How do they enhance content?

3. Face of your Classroom

What kinds of information would you like to have on your (professional/class/program) website? Make a list below

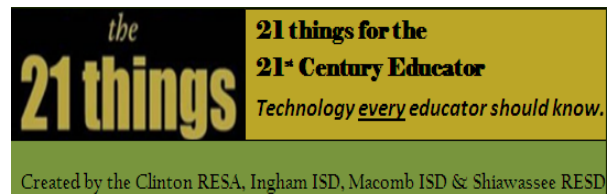

And based on the above, I am going to build a presence in the (weebly, wikispaces, blog) environment

My website: _____

My login: _____ My password: _____

4. Evaluation

www.21things4teachers.net

- Want to see materials and webinars? Visit the website, click on *Partner Agencies*, then the *Ingham ISD* logo. On this page you will see the information for documenting your work and the tasks
- Would you like to earn up to 12 SB-CEUs or 1-4 graduate credits? Register for the *21 Things* session starting in January. You can actually start NOW to do the things and create your portfolio if you like! Visit <http://pd.inghamisd.org> to register for the session beginning in January.
